— About **VEKAdeck**

Innovative, Eco-Friendly, Versatile

Precision-Crafted PVC Deck Profiles

VEKAdeck is the premier choice for outdoor spaces, providing durability, realistic wood looks, low maintenance, and environmental sustainability.

- ✓ Versatile Color Options
- ✓ Durable & Long-lasting
- ✓ Weather Resistant
- ✓ Lighter than Wood or Composites
- ✓ Superior Color Retention
- ✓ 100% Recyclable
- ✓ Mold and Mildew-Resistant
- ✓ Low Maintenance
- ✓ Fire-Resistant
- ✓ Slip Resistant

Longevity and Wear Resistance

PVC vs Composite

PVC DECKING	COMPOSITE DECKING
Fully synthetic	Semi-synthetic
Most realistic woodgrain character	Wood-inspired looks
Most durable : resistant to rot, mold, and insects	More durable than wood
Limited lifetime warranty	25-30-year warranty

- ✓ VEKAdeck is formulated to minimize maintenance and prevent common problems associated with wood, such as mold and insect infestations.
- ✓ VEKAdeck is 100% recyclable.
- ✓ VEKAdeck has no organic content, meaning that mold and mildew have nowhere to go.
- ✓ PVC is a lighter weight material, easier to transport and work with.

Additional Features

Proven Quality

- ✓ Embossed attractive woodgrain on the surface, for exceptional traction even in wet or slippery conditions.
- ✓ Thermally reflective to help keep you cooler underfoot.
- ✓ Unique formulation of 100% PVC, performance modifiers and color pigments has low expansion and contraction.
- ✓ Moisture-resistant and impervious to salt, VEKAdeck is a top choice for deck builders across America.

— Tested & Certified

VEKAdeck has been evaluated by Intertek Code Compliance Research Reports (CCRR-0137), the leading source of technical information on building codes, products, and technology and complies with the latest IBC and IRC Building Code standards.

For custom looks, install VEKAdeck fascia boards on curves and semicircles.

Installation & Maintenance

- ✓ Effortlessly installed with traditional tools, VEKAdeck material is easy to work with and cut.
- ✓ VEKAdeck can be sawed at any angle and is self-countersinking; the board will not mushroom, and resists splits better than most woods and composites.
- ✓ VEKAdeck easily accepts screws, and most types of fasteners. VEKA recommends stainless steel screws for best performance.
- ✓ Routinely clean your PVC decking with a mild soap and water solution to prevent dirt buildup.
- ✓ Avoid using abrasive cleaning tools to prevent scratching the surface of the PVC decking.
- ✓ Power washing is an acceptable method for cleaning VEKAdeck; set pressure washer to manufacturer's recommended setting for vinyl to avoid damage.

Eco-Friendly Recyclable PVC

Designed with Sustainability in Mind

As a recyclable material, PVC saves our precious forest resources from being depleted. Over the last 20 years, VEKA North America has used pre-consumer, mixed-color reclaimed PVC for handrail, as well as packaging containers.

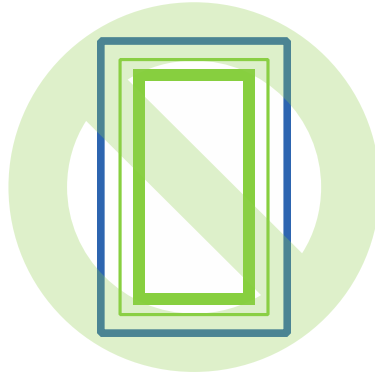

Long-Term Value

Care and Maintenance

✓ VEKAdeck's superior capstock is stain-resistant, unlike most other deck boards

✓ Unlike wood and wood composites, VEKAdeck will resist fading and retain color longer

VEKAdeck
ADVANCED CELLULAR PVC DECKING

Rubber-Backed Mats

The combination of sun, water, and the chemical properties in rubber-backed mats will adversely affect all PVC deck materials.

Hemp or colorfast woven rugs are recommended.

Suntan/Sunscreen Lotion or Sprays*

These products contain chemical ingredients that may react with the decking material and result in a stain on the decking surface.

Bug Spray*

These products contain chemical ingredients that may cause discoloration of the vinyl product surface.

*Apply these products indoors, off the deck, away from railing and fence, or in such a way that over-spraying of product will not come in contact with the deck surface. (Visit vekaolp.com for more info)

Limited Lifetime Warranty

Elevate your confidence in outdoor living with VEKAdeck's Limited Lifetime Warranty. We're committed to delivering a high-quality outdoor living solution that lasts.

Trust in the VEKAdeck warranty to provide you with unmatched protection and longevity.

VEKAdeck complies with CCRR-0317

VEKAdeck
ADVANCED CELLULAR PVC DECKING

Advantages of VEKAdeck:

- ✓ 100% recyclable, superior mold resistance, and lighter weight.

Key Features of VEKAdeck PVC Decking:

- ✓ Versatile colors, durability (30-50 years), mold resistance, and low maintenance.

PVC vs. Composite Decking:

- ✓ PVC: 100% vinyl, longer lifespan, and low maintenance

Benefits of PVC Decking:

- ✓ Lightweight, resistant to water/mold/mildew/rot, customizable colors, recyclable, and superior lifespan/maintenance compared to wood.
